PureData Convention:

Artengine is delighted to contribute resources and support to the 2007 PureData Convention. Equipment and technical support from the organization will be available for events prior and during the conference. We will also apply for funds from the Strategic Grants for Organizations program at the Daniel Langlois Foundation. This income will provide funding for the organizing body of the conference. Artengine's server resources (for listservs, filesharing, hosting before, during and after the conference and any other on-line infrastructure needs) will also be available to the conference, its participating artists and its organizers for all the needs of the event.

Sincerely,

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke extending to the right.

Ryan Stec
